

ROTATIONAL CONTROL

BY B&D MFG., INC.

Increase the functionality of your entire system by incorporating rotational start of equipment!

Pair Control with any of the following Hydronic Applications

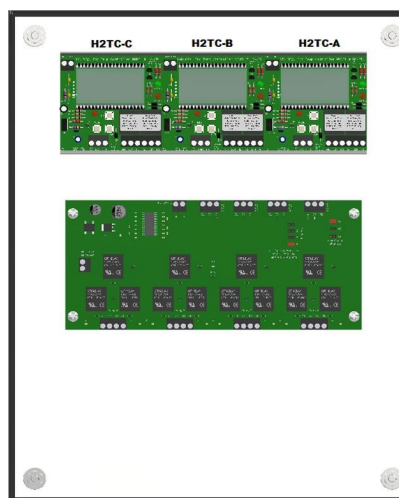

- Water-to-Water geothermal heat pump applications
- Air-to-Water and Water-to-Air heat pump applications
- Boiler & Commercial Chiller applications
- Utilize with tankless water heaters for space heating applications
- Utilize with high-efficiency hot water tanks for space heating application

Rotational Control Panel Features and Benefits

**1 Control package
connects up to 4 devices**

**Pre-wired to accommodate
2, 3 or 4 equipment applications**

**Easy to install on pre-existing
HSS Buffer Tank System**

B&D PART# BDCB-RC4HP

**B&D Designed Controls
wiring decal provided with all units**

**Easy-to-Mount
for added location flexibility**

**Control Box Dimensions
15" H x 12" W x 3" D**

- 3-Year Warranty on all components
- Field adjustable settings for Dual-Stage time delay
- Easy adjustment for rotating operation of 2, 3 or 4 devices
- Each controller includes a locking function to prevent accidental reprogramming
- Easy to follow color-coded schematic of low voltage wiring located inside the control panel
- Temperature controllers are pre-programmed at the factory with heating and cooling set points
