

Detectable Warning Tape Product Specifications

Product Type

- Detectable Warning Tape

Description

- Detectable warning tape provides for easy buried pipeline detection and below ground identification and warning. The tape can be located below ground with a non-ferrous metal locator/detector when buried at the proper depths. We recommend bury depths

Tape Width	2"	3"	6"
Burial Depth	6" - 18"	6" - 28"	6" - 36"

Standard Widths

- 2", 3", 6", 12"

Standard Length

- 1000'

Physical Properties

- Elongation: 80% MD and 135% TD
- .0020 aluminum core adhered to 2.55 polyethylene backing
- Tape color and legend combination are in accordance with APWA requirements
- Tensile Strength: 7,800 PSI
- Made in USA
- Tape printing beneath top protective layer
- Thickness: 5 mil nominal
- Ultra high molecular weight
- 100% virgin polyethylene
- Alkaline and corrosion resistant
- Heavy metal free
- APWA color coded

Packaging

- 2" - 12 rolls per case
- 3" - 8 rolls per case
- 6" - 4 rolls per case
- 12" - 2 rolls per case
